Step 2 Included Parts & Hardware

Check that you have all of the parts and hardware shown before starting. Hardware pack: 046-0044: eight nylon spacers (.257 ID x .500 OD x .375 in.) and eight #8-15 x 3/4 in. pan head Phillips screws (listed in the bill of materials picture).

Step 3 Position Panel

Move the seat all the way back. Hold the panel against the side of the console, lining up its edges with the molded edges of the console. Make sure there is solid material behind all four mounting holes for the spacers and screws.

Video timestamp: 0:15

Step 4 Mark Mounting Holes

Holding the panel steady, mark all four mounting holes with a sharp prick punch. A small 1/16 in. drill bit also works.

Video timestamp: 0:47

Step 5 Define Pilot Holes

Move the panel out of the way and go back over each mark with the punch to make a good pilot hole for the coarse thread screws.

Video timestamp: 1:21

Step 6 Install Spacers and Screws

Run a black coarse thread screw through the front of the panel and put a black nylon spacer on the back at each mounting hole.

Video timestamp: 1:37

Step 7 Thread Screws In

Line up the spacer with the hole and thread the screw in with a Phillips screwdriver, or carefully with a drill. Leave the first one slightly loose and repeat at the other three holes.

Video timestamp: 1:53

Step 8 Tighten Screws

Once all four screws are started, tighten them all.

Video timestamp: 2:09

Step 9 Install Other Side

Repeat the same steps on the other side of the console to complete the install.

Video timestamp: 2:25

Step 10 Installation Complete

Confirm all hardware is tightened. Congrats! Your installation of the Bronco Sport Console MOLLE Panel is now complete. Enjoy!
