Step 1 Center Console MOLLE Panel Install Jeep JK

Step by step on how to install the Jeep Wrangler JK Center Console MOLLE Panel. Installation Video: https://www.youtube.com/watch?v=AkJr2qN7qGc Questions or Support: Phone: 269-353-1184 Email: info@jcroffroad.com

Step 2 Mounting - Marking Holes

- Move your seat all the way back to make as much room as possible before installing the panel.

- Line up the panel so its flush with the center console. Mark the screw holes with a pick or a sharpie.

Step 3 Mounting - Drilling

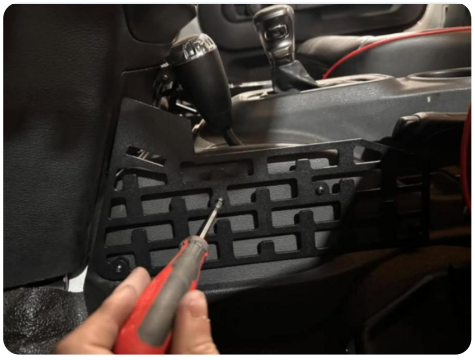

- Use a drill bit or a pick to puncture a hole into the plastic but make sure the pick is smaller than the screw or use a 1/8″ drill bit. Be sure you only drill deep enough to get the screws started.

Step 4 Mounting - Installing the Panel

- Install the panel using a Phillips screwdriver. Use 1 screw and 1 spacer per hole, with the spacers going on the back side of the MOLLE panel.

Step 5 Final Check & Repeat!

- Do not over-tighten the screws but make sure they are snug. When you have completed 1 side, repeat the same steps on the other side.

- **Confirm all hardware is tightened. Congrats! Your installation of the Jeep Wrangler JK Center Console MOLLE Panel is now complete. Enjoy!**
