Set bins out in this order • One bag at a time • Gold = zinc • Black = black finish

Odoo BOM link in description

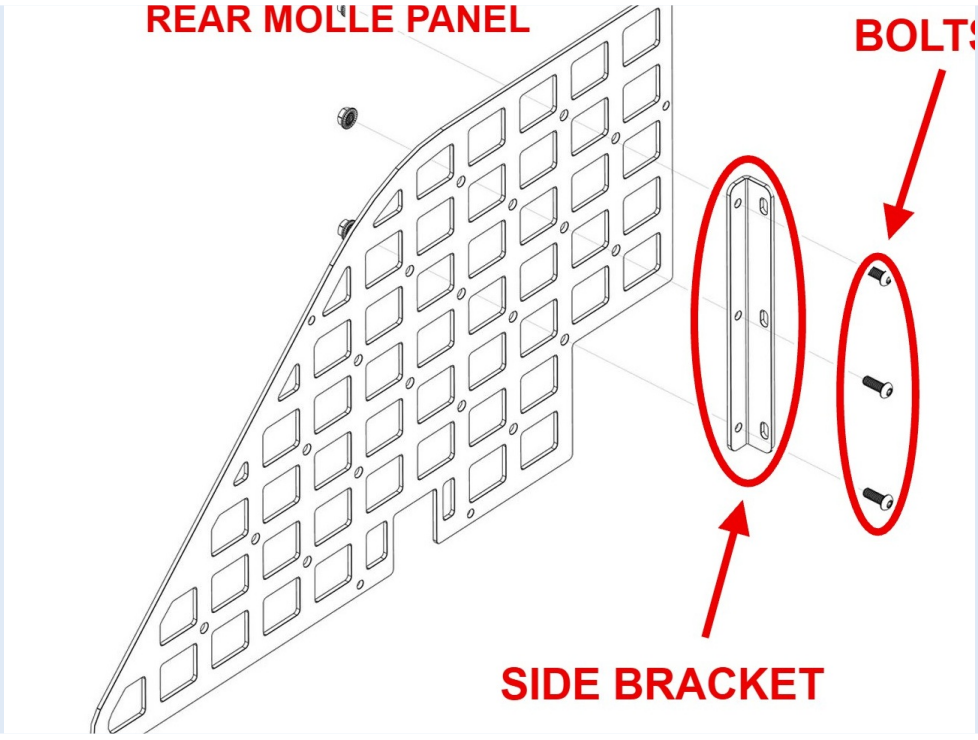

Check that you have all of the parts and hardware shown before starting.
Hardware pack: 046-0146 (every bolt, nut and washer is listed in the bill of materials picture).

Step 3 Assemble Panels

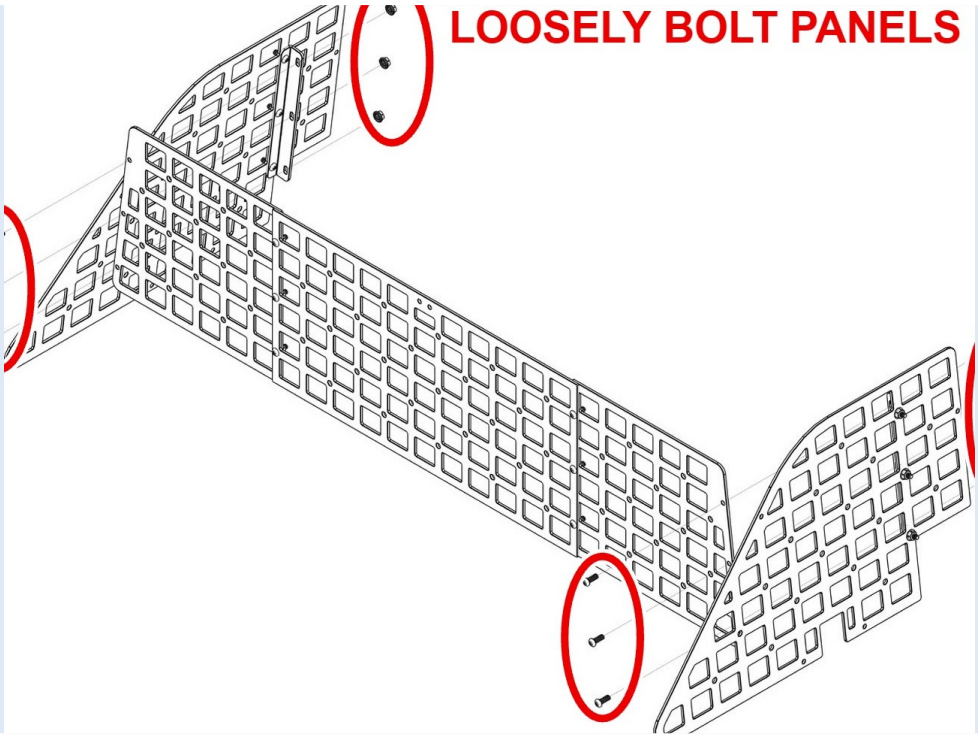

Assemble the three panels by setting the middle panel over the two outer panels and bolting them together with the 1/4-20 x 3/4 inch button heads and flange nuts.

Step 4 Mount Side Brackets

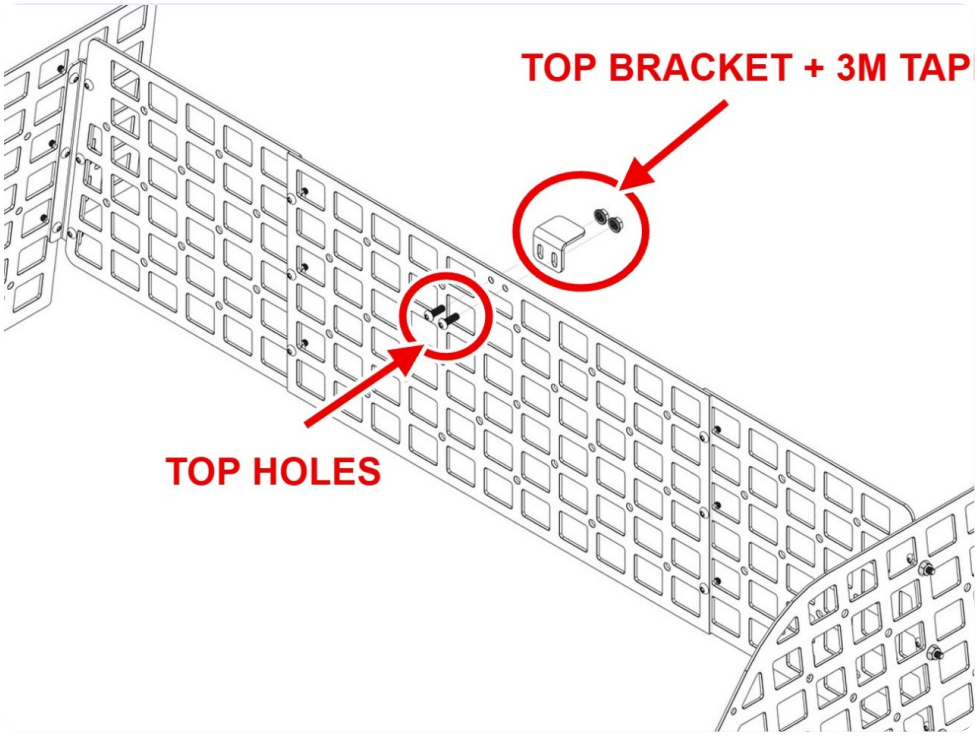

Mount the side brackets to your rear MOLLE panels with the provided hardware. The face with the holes goes against the rear MOLLE panel and the face with the slots points toward the front of the vehicle.

Step 5 Bolt Panels to Brackets

With the panels assembled and the brackets mounted, loosely bolt the panels to the brackets.

Step 6 Install Top Bracket

Stick the 3M adhesive to the top of the small bracket and install it into the two holes in the top of the middle panel. Lift the panels as high as they go so the adhesive sticks the bracket to the roof, then hold them there while you tighten all the hardware.

Step 7 Installation Complete

Congratulations, you have completed the install of your new Bronco Pet Divider! Enjoy your new product.
