8	6	040-0147	1/4 MIL-SPEC FLAT WASHER 18-8 SS BLK

Set bins out in this order • One bag at a time • Gold = zinc • Black = black finish

Odoo BOM link in description

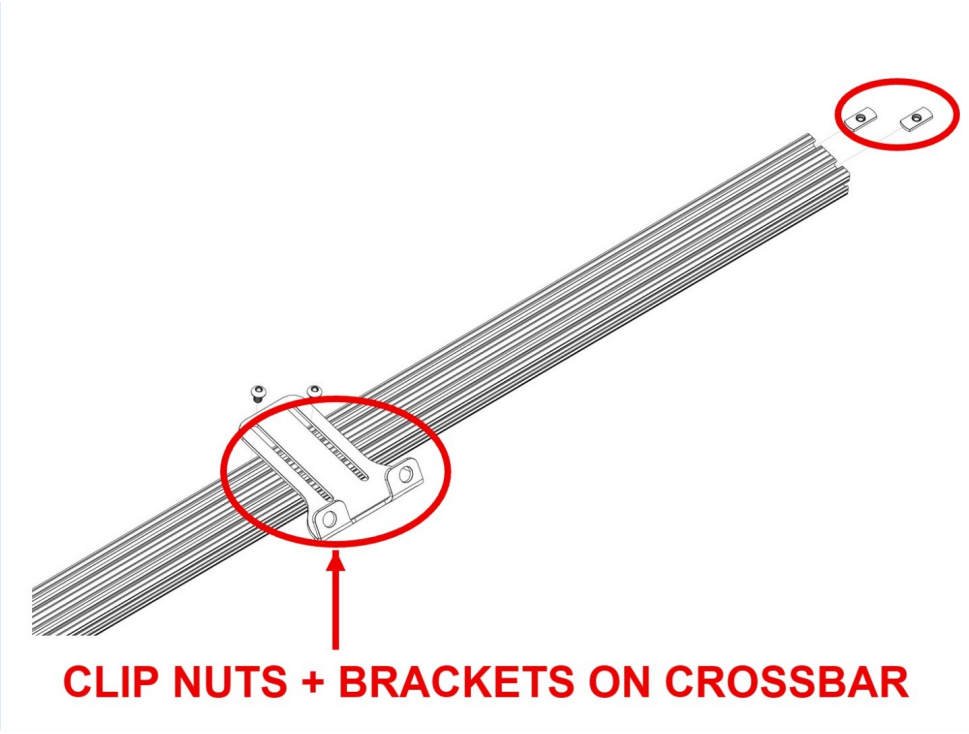

Check that you have all of the hardware shown before starting.

Step 4 Assemble Fairing

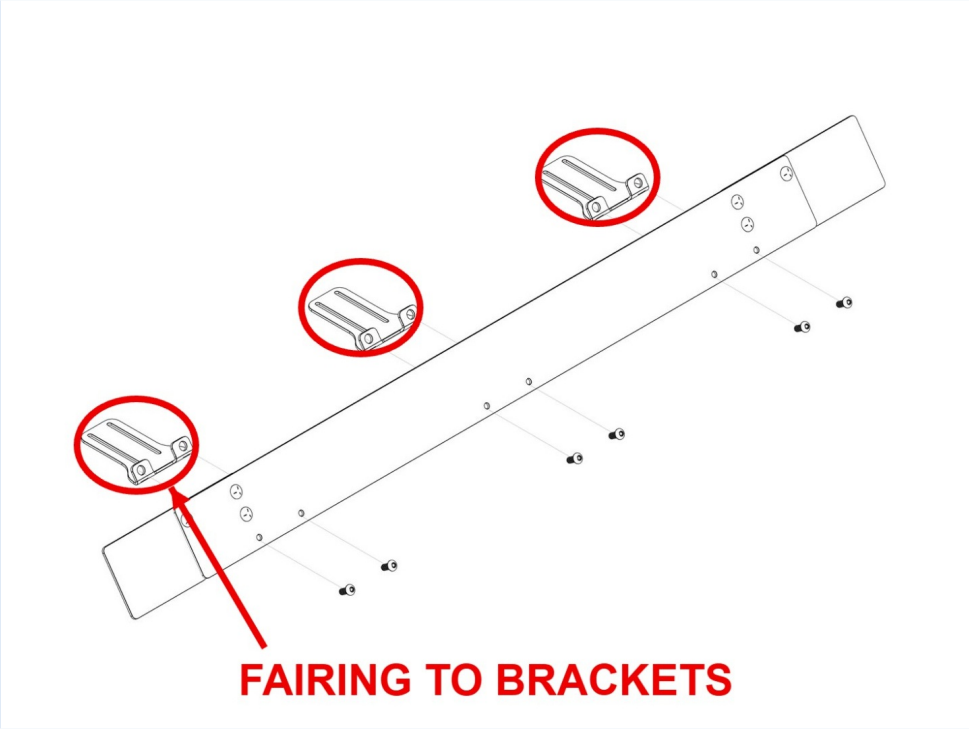

Assemble the 3 fairing pieces with the carriage bolts and 5/16 flange nuts. Set the width using the slots in the smaller brackets. Below 54 inches, omit the outermost carriage bolts on both sides. For 44 inch racks, leave off the side brackets. Install bolts in any empty holes to avoid wind noise.

Step 5 Install Brackets

Place the 6 clip nuts over the holes of the 3 smaller brackets. Loosely install the brackets on the crossbar closest to the front of your tent using the T-nuts and 1/4-20 button head bolts.

Step 6 Mount Fairing

Secure the assembled fairing to the brackets with the longer 5/16 button heads into the clip nuts. Adjust the spacing between brackets so all the holes line up with the fairing.

Step 7 Tighten Hardware

With all hardware started, fully tighten the brackets to the crossbar and make sure everything else is snug to finish the install.

Step 8 Installation Complete

Confirm all hardware is tightened. Congrats! Your installation of the Roof Top Tent Fairing is now complete. Enjoy!
