

4th Gen Toyota Tacoma Control Arms Skid Install

Feedback?

1

Included Hardware: (6) 3" Carriage Bolts, (6) 1/2" Washers, (6) 1/4" Nylock Nuts.

2

Included Part(s): (2) Lower Control Arm Skids.

**3**

The (3) holes shown above will be used to mount the lower control arm skid to the lower control arm.

4

With the skid lined up to each of the (3) holes, insert a carriage bolt through the bottom of the skid up through the control arm, with a washer and nylock nut on top. Leave everything loose.

5

With all of your bolts started, use a wrench to tighten them all down into place. Repeat this same process on the other control arm to complete your install.

6

Thank you for supporting American-made. We hope you enjoy your new product!
